EXPERIENCE

Front End Developer

The Schnell Apps PVT LTD Aug 2022 - Jan 2024 Bhiwandi (Thane)

The Schnell Apps digitally transforms businesses and puts them on track to becoming one of India's fastest-growing brands.

- Responsible for working on a range of projects, developing appealing websites, and interacting on a daily basis with graphic designers, back-end developers, and project managers.
- Created the Responsive Admin panel and Website by understanding the user requirements.
- Performed the Unit testing of the UI which has been developed.
- Integrated the modules with the Rest API for CRUD operations.
- Applied on-page SEO to websites.
- Used git for collaborative teamwork.
- Built admin panel and wrote CRUD operations using Axios in ReactJs.
- Daily task report to the Team lead.

Projects

- Hukum Ki Jiye (Food Delivery App): Engineered CRUD operations in the administrative panel with a focus on scalability and performance optimization. Implemented advanced SEO strategies to elevate website visibility and search engine rankings effectively.
- The Gym App (Fitness On Track): Architected a streamlined CRUD system in the management interface, integrating responsive design principles for enhanced user experience. Implemented website modifications with a keen eye on performance optimization and cross-platform compatibility.
- LMS (Learning Management System) Learning Management System: Designed and implemented a robust CRUD framework in the management, leveraging modern technologies. Developed dynamic website templates to enrich the learning experience and ensure seamless navigation for users.
- Turf: Spearheaded CRUD operations within the management console, emphasizing data integrity and system efficiency. Employed advanced caching mechanisms and query optimization techniques to enhance overall system performance and responsiveness.
